

# Cardiological check-up

Medical examination and health consultation aim to determine individual cardiovascular risk and detect health problems early on. This preventive screening enables early treatment of diseases and prevention of their progress.

Out-patient

Duration: 1-2 days

## The Cardiological Check-up includes:

- Consultation with the doctor (medical history; differential diagnostics; selection of required medical tests)
- Extensive laboratory analysis
- ECG (electrocardiogram)
- ECG-stress test
- 24-hour-ECG-monitoring
- Echocardiography
- Stress echocardiography
- Peripheral ultrasound of the blood vessels (Doppler)
- Blood pressure test (including 24-hour-monitoring)
- Summary provided by the doctor, discussion of the examination results and further treatment recommendations
- Cardio CT-scan, MRI or coronary angiography can be arranged at additional costs

If necessary, further examinations might be ordered at additional cost (if additional tests such as Cardio CT-scan, MRI or coronary angiography are recommended by doctors.)

**Please note!** The cost for screening is preliminary. If some of the services included in the initial calculation are not necessary, the remaining money will be reimbursed to you after the final re-calculation.

The University Heart Center Basel brings together an internationally renowned team of experts in the fields of cardiac surgery, cardiology and other disciplines «under one roof».

Equipped with the most modern diagnostic and treatment techniques, it offers all modern therapeutic procedures for heart diseases. Together with the cardiovascular research institute Basel (CRIB), our physicians publish numerous top-class international publications every year and are involved in the creation of international guidelines for the treatment of cardiac diseases.

## Our experts are here for you:

**Prof. Felix Mahfoud**  
Chief Physician Cardiology

**Prof. Christian Sticherling**  
Deputy Chief Physician Cardiology,  
Head of Electrophysiology

**Prof. Oliver Thomas Reuthebuch**  
Chief Physician Cardiac  
Surgery ad interim

**Prof. Gregor Leibundgut**  
Senior Attending Physician  
Cardiology, Head of  
Interventional Cardiology

**PD Dr. Thomas Nestelberger**  
Senior Physician Cardiology,  
Head of Structural Heart Disease
